PROFESSIONAL SUMMARY

UI/UX Designer and Frontend Developer with 9+ years of experience in website management, CMS administration, and digital product design. Proven track record of building, maintaining, and optimizing websites using HTML/CSS, WordPress and Webflow, with a strong focus on usability, performance, and clean visual execution.

Experienced in content publishing, basic SEO, and digital asset creation, with hands-on experience in TikTok affiliate marketing—creating short-form content, analyzing performance, and leveraging AI tools (ChatGPT, Claude, Gemini) to improve workflow efficiency and content output.

Combines technical execution with creative problem-solving to support businesses in building high-quality digital experiences and engaging content.
